

Make a cake for your horse!

We love to treat our Adoption Stars with a scrummy cake on their birthdays. This special home-made treat is decorated with all the things horses and donkeys love to eat - the perfect way to celebrate their big day!

Just remember; while our cakes are nutritious, they should only be given as occasional treats to ensure a healthy diet. And as tasty as they look, they're just for your horse or donkey friend to eat - not people!

How to make a cake for your horse!

1. Soak some basic high-fibre pony nuts in water (just enough to cover) and leave to stand for a few hours. We use Spillers High Fibre cubes. Once they've expanded nicely and can be moulded, you are ready to assemble your cake!
2. Mould the soaked pony nuts into whatever shape you like.
3. Then decorate with a selection of the following: carrots, apples, horse mix, mint powder, peppermints and ginger biscuits - the latter are a particular favourite of donkeys!

We'd love you to share your own creations with us! Why not email your photos to info@redwings.co.uk or post your pics to our social media pages?
