

Make your own ... Stand-up horse

You will need:

- The tube from a toilet roll
- Paint
- Colouring pens
- Scissors
- Glue

colour me in! →

1

Paint the outside of the toilet roll in the colour you'd like the body of your horse to be. Then colour in the head, arms, tail and feet

2

Cut out your coloured-in templates and, after your paint has dried, glue on the head and arms to the tube.

3

Fold the tail in half so you can see the coloured side. Fold the tab up, then glue one side of the tab to the back of the toilet roll.

"Careful! Scissors are sharp! Ask a grown-up to help. When you've finished, don't forget to send a pic to [mini@redwings.co.uk!](mailto:mini@redwings.co.uk)"

4

Fold the tabs on the feet and the tail and glue them at the bottom of the roll.
