

# Wicked Wordsearch!

Find the horsey and autumnal words listed below in the grid. You can check your answers on the separate sheet. Want to know what these words mean and why we've picked them? Check out the descriptions at the bottom of the page.

Apple	Forage	Rug
Autumn	Mud fever	Stable
Candy	Pumpkin	Winter Coat
Cold	Rainscald	

**Apple** - We have two ponies named after this delicious snack. One lives at our Ada Cole Visitor Centre, have you met her?

**Autumn** - We have a pony called Autumn at our Head Office!

**Candy** - Not just the yummy sweets, but the name of another one of our ponies!

**Cold** - Brrrr the temperature is dropping now that we're in the autumn season. Wrap up warm!

**Forage** - The winter weather means there's less grass for our horses to eat so we provide them with some extra food such as hay, which is a type of forage.

**Mud fever** - A nasty condition that affects a horse's legs as a result of being exposed to bacteria often found in mud - ouch!

**Pumpkin** - Pretty pony Pumpkin was born here at Redwings... aww! (She's all grown up now!)

**Rainscald** - Another nasty skin condition caused by bacteria. Typically contracted when we've had lots of rain, as the name suggests!

**Rug** - Some of our residents need rugs to keep warm during these colder months.

**Stable** - A cosy and warm place for our residents staying at our horse hospital.

**Winter coat** - Some of our residents get 'fluffier' this time of year because they grow big winter coat to help keep them warm
