

A-mule-zing differences!

At Redwings we look after over 1,500 horses, ponies, donkeys, mules and hinnies, but can you tell the difference between them all? Draw a line to connect the picture to the correct statement. Look at the pictures of our residents below and read the clues about their distinctive features to help you work out who is who! You can find the answers on the page below.

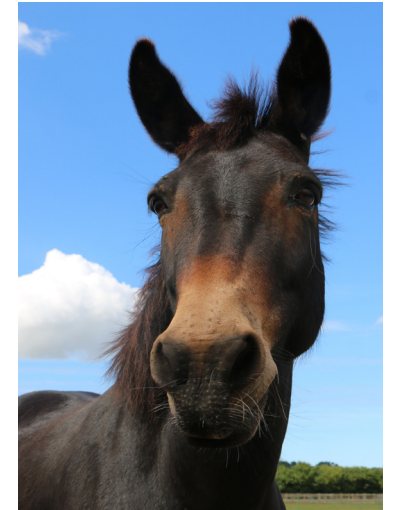

Victoria

Molly

Timothy

Noah

Donkey

Both parents are donkeys
