

Monarch

Colt
Hackney X
Born 2022

Monarch was born at Redwings in 2022, to mum Majesty. Majesty arrived at Redwings in February 2022, having been involved in a road-traffic accident and then discovered to be heavily in foal!

They were both named in honour of arriving at the Sanctuary the year of the Queen's Jubilee.

Charlotte A

Mare
Cob
Born 2007

Charlotte came to Redwings as part of a multi-organisation rescue in south Wales. Sadly hundreds of horses were in a suffering state and living in unsuitable conditions.

Did you know Charlotte's son was also rescued? His name is Curtis and he now lives out in a Guardian home! You can find out more about rehoming a rescued resident on our website.

Louis A

Gelding
Welsh Cross
Born 2008

Louis came to Redwings as part of a group of seven horses and ponies that were found by the police wandering the roads in May 2010.

The group were eventually signed over to Redwings after several failed attempts to collect a couple of the horses and no-one came forward for the five other ponies.

George

Gelding
Gelderlander
Born 2005

George was one of the many horses rescued from Spindle Farm in Amersham in 2008. He came to Redwings in 2009 having stayed at an RSPCA boarding yard after rescue.

This was one of our most famous multi-agency rescues with over 100 horses, ponies and donkeys found in poor condition.

Are there any residents at this visitor centre that were also part of the Amersham rescue?
