

# REHOMING TRAINING QUIZ

At Redwings we currently train and rehome horses, ponies and donkeys in one of four classes: ridden, lead rein, non-ridden companion and unbacked project. Take the quiz to figure out which trainee horse you would be like.

**What's your favourite quality about yourself?**

- A Optimistic
- B Kind and caring
- C Trustworthy
- D Willingness to learn new things

**It's the weekend, what will you be doing?**

- A Activity club
- B Hanging out with friends
- C Playing with my siblings
- D I'll decide on the day

**What would be your dream job?**

- A Top Rider – riding is so much fun!
- B Zookeeper– I love cuddling animals!
- C Instructor – I would love to help others learn.
- D Student – I never want to stop learning!

**How would you describe yourself?**

- A Competitive
- B Friendly
- C Gentle
- D Eager

**What would be your reasons for getting a horse?**

- A We would ride and compete together
- B To be my best friend!
- C I would love to learn to ride with some help
- D I want to develop my knowledge of horses

## Mostly As Ridden

You are confident and competitive, striving to be the best you can be. You compete for fun and for the win and love having family and friends beside you.

You relate most to our ridden horses. Our ridden horses go through long training programmes preparing them, not only for life in their new home, but for riding and the possibility of competing with their Guardians. Our Rehoming team train the horses recognising and working with their strengths to show off their full riding potential to Guardians. They work hard but love their training.

## Mostly Bs Non-ridden Companion

You may not be getting medals for sporting events but you could certainly get one for being an amazing friend! You care for and support your friends all the time and love animals too!

You relate most to non-ridden companion horses. Our companions go into Guardian homes making the best buddies for horses already in the home and make great additions to a family. They love lots of care and attention from Guardians. They may not be able to be ridden for various reasons but that doesn't mean you can't have lots of fun with them!

## Mostly Cs Lead Rein

You love to work hard and help others. Yet you still appreciate help and guidance from those around you.

You relate most to our lead rein horses. Our lead rein horses go through a long training programme to make them suitable to be ridden by young children. Our lead rein horses are great with smaller, younger Guardians showing them the ropes of what it's like to look after horses and ride them. They love working with their Guardians but still appreciate someone to be there for them too.

## Mostly Ds Unbacked

You love to try new things and, with support and guidance from those around you, they can help you discover what you're really good at and enjoy.

You relate most to our unbacked projects. Our unbacked project horses have very basic training in the hope they will find a Guardian who can help them progress, grow and learn to be ridden in their new home. Confident and experienced Guardians will learn what their horse enjoys and their talents, working with them to bring out their full potential.
