

# Young Reds At Home Academy

## 'Horsing Around' Activity Sheet

Imagine you are one of the Redwings team and help us with some of the things we do to look after our rescued residents.

Can you come up with a snazzy new group name for our horses?

As you may have guessed our residents have all sorts of weird, wonderful and wacky (or should I say Wacko!) names! We name our residents in groups to help us identify which rescue they were all a part of. For example we have a group of Shetland ponies named after different types of cheese, Shire horses named after butterflies and cobs named after things you might have for breakfast! Can you think of a new group theme and a list of names?

Write it here: \_\_\_\_\_

Can you plan a birthday party fit for a Redwings Adoption Star?

Our parties for our Adoption Stars are a huge hit and great fun for both staff and visitors. What would you do if you could throw our Adoption Stars a birthday party? Have a go at designing an invitation on a piece of paper and let people know what you will be doing to make the birthday boy or girl feel super special on their big day!

Create a resident profile for your favourite Redwings resident or your horse or pet at home.

If you have been to visit a Redwings Visitor Centre you will have seen that each of our residents has a story card so you can read all about them.

Now's your chance to design your own! You could include a picture, their name, colour, age, best friend or any fun fact about them.

You are now one of our Farm Managers, take our paddock puzzle game and see if you can work out who needs to go in which paddock.

With over 1,500 rescued residents to look after, each with their own individual needs, our Farm Managers are always working out who is suitable to be in which group here at Redwings, and which fields suit them best.

You can help them out today by having a go at our puzzle.

### Donkey Differences!

Have a look at some photos of donkeys and horses (you can always head to the Redwings website to see some!) How many differences can you spot between them?

Once you've made a list have a look at our handy guide and see how many you spotted!

### Get in touch!

Charlotte, our Young Reds Editor, would love to see your fantastic ideas so why not email her and attach some photos of all of your hard work?

You can email [young@redwings.co.uk](mailto:young@redwings.co.uk)

We look forward to hearing from you!
